

LA Unscripted | March 10th, 2023

From hot spots to hidden gems and a Sprinkle of glitz and glamour This is your guide to all things local The L A unscripted way from the Beverly Wilshire Penthouse Suite the action the drama the comedy No I'm not talking about an episode of scripted It's Hollywood's biggest night and we are feeling golden for Oscar Hi everyone I'm de and in honor of the big show we decided to make ourselves right at home and an Oscar worthy location the Wilshire Penthouse Suite of Four Seasons Hotel You might recognize it from this small little movie Pretty Woman yet The iconic film was shot right here in 1991 Julia Roberts earned the best actress nomination for that role So maybe that means there's a trophy in my future The movie Pretty Woman has really given us an identity It's part of our history It's it's part of our story When you say you're going to the Beverly Wiltshire I think what that movie did It brings this expectation this fantasy and it's the ability for this hotel to bring some of those bucket list experiences to life So whether they want to recreate the elevator scene whether they want to do the jewelry scene on Rodeo Drive there's too many options to be able to relive and we're so happy to be able to have it So uh coming out of the pandemic we were fortunate enough to be able to uh upgrade all of our rooms and suites here in the hotels We're brand new We're ready to go and we're excited to be able to welcome our guests back to the hotel This hotel offers so much from our staff from the experiences um from our local the large amount of suites that we have here If you want that space if you want that celebration if you want to be outside on your balcony your footsteps from Rodeo and everything is within This is gonna be wonderful We're gonna serve it a nice pink We have an exclusive cut with us This is red wine Kobe from the Yogo prefecture in Japan The cut is dust spot for so many reasons you know unique cuts of beef from around the world Some of the best w go and seafood being cooked by chef Drew inside of the restaurant crop cocktails in the newly renovated cot lounge My favorite preparation is actually the service with some Japanese wasabi that we get flown in twice a week with a shark skin grater The traditional way to serve it The pretty woman drink is a is an icon here in the boulevard It's the feeling pretty cocktail It's it's obviously styled after the the movie People travel from all over the world to come and get their pretty pretty woman experience I think we sell it to 4000 of those cocktails every single year It's a great vibe It's really a uh a fantastic experience to come during the woods season So we have uh up and our spa you can get red carpet ready Uh Jillian

our lead therapist up there is really fantastic at uh at having that connection and and making our guests ready for the big night Yeah the boulevard restaurant and the bar and there really comes live and uh there's a TV up and behind the area heard all about this Saber Yes So what is Saber So Saber is a way of opening champagne bottles that was invented by the French back in the 14 hundreds So the story goes the most important figure in champagne history the widow Clio would actually host Napoleon and his soldiers And as a thank you at the very end of their stay they would take their swords and cut off the tops of champagne to give her what's called a champagne salute And this is just something like this is just a thing you guys do here Yeah and everybody loves it 100% So what we're gonna do is just untwist it real quick we're gonna do is we're gonna take the blade hold it very firm in your hand and then you're gonna hit it right here So it's gonna go something like this Oh OK Are you ready for this This is actually really good Are you ready I'm really nervous You got it Oh I did Oh my God I did I did it Can I drink it Yeah Oh my God I'm so proud of myself Wow That was so cool I know Right That was so cool Yes it was I am so happy I'm never opening it any other way It's like they know me so well But before we toast to Tinsel Town's winners my envelope says the award goes to a unscripted Glam squad This is has Lady Guzman from Bo Ko Salon in Pasadena She does the best What are we doing today today We're getting ready for the Oscar Of course you'll be beautiful in that gown So I'm trying to recreate like a siren from the 19 What I said it's gorgeous You're gonna be gorgeous All right So I'm gonna ask you about some trends that we've seen in the past What you think if we maybe see it again this year one of the trends I think we saw a lot of in the past few years was the strong bob like Charlize Charlie to me and that brunette bob was shocking but very beautiful very striking Um But she's always blonde She's the blonde I was very surprised about Serena She always wear her hair Bras and the structures and she came in with this really clean square bob and she looked magnificent Her cheekbones came out Ok And so another thing I think we've seen a lot of is it like embellishments in the hair like feeding or flowers or you know like yes with the gold in her hair she nailed this for black Panther like that look was so perfect You know you've always been a big fan of Jessica Chast State I could not agree more The thing I think she does so well Is these like up dos that are loose and yes they're not too stiff and like stuffy And that's important because as a woman if you go get a ma a yes and you yourself a decade you have to keep it loose you have to keep it fun Yes OK We we've been fawning over her this entire

time but again when we talk about the loose do I you're killing me softly right now like this is for dune and you know what I love also she's always very appropriate for what she nominated for Ok we're done And if you guys want this look or any look because house lady can do them all You get a discount code right Yes If they call and mention that they saw on L A unscripted they get 20% off in any service until the end of March Ok So we did the hair and makeup And now it's time for my absolute favorite part The go and you guys look at this wreck I I'm not worthy Oh my God I'm not worthy This is amazing You know this is my favorite part of Oscar Oh my God When we get to do that you are the Richard Gere to my Julia Roberts all a pretty woman Ok I can't even deal with these choices right now This is amazing But before we pick a go let's talk about what the trends are this season what are we going to be seeing Do you think Ok I want you to think pink and we've been seeing a lot of people have been doing things But if you remember 1999 when Shakespeare love with the pink dress Ralph Lauren that really started OK The pink Really Now that was a pastel pink But now we're seeing this bold vibrant Barbie doll pink In your words we are my favorite example of a Barbie pink on the Oscars carpet is 2018 Viola David Yes But what do you think about black on the red carpet What are your thoughts Black on the carpet is great Just don't make it basic has to have a twist right It has to have something All Angelina Jolie with the slit OK Julia Roberts the year 2001 The dress Valentin and black is good enough for the diva talking I'm talking B as in Beyonce and G as in Gaga And that was 2005 for Beyonce 2019 for God I seen so much of the metallics but we're not talking just like you know secret I mean we're talking like Pet think JLO and her long flee Tom Ford Metallic in 2019 Think Emma Stone who won her She hope to Right Metallic Right Head to toe And then of course who can forget Sandra Bullock Oh yes Metallic Yes She want to Meals are lucky Ok here's your first option You were talking about Barbie doll pink on the red carpet And it's funny this was one of the colors of the year I remember Like it's it's stunning It's stunning and actually believe it or not it's so comfortable Ok I think we might have a winner What do you guys think OMF Isn't it beautiful I love it so much Ok Here's the question though Are we saying yes to the dress There's a tag here by the way I'm not opposed to taking off tags and then putting them back on But if we're gonna wear this dress we have to take the tag off Are we committing It's like a mattress Do not remove tag It's illegal Yes Take it 321 And honestly I think any deserves the VIP award and she deserves the Oscar for best stylist because I wasn't the only K are getting

the style smart VIP treatment J Megan Hi guys Welcome to my March Madness The Oscars It's finally here I was gonna say I'm really we're great at basketball But you know what I say Put me in coach There are about seven different designers represented here in this showroom I love it We have gowns flown in from New York from Texas from Turkey all over This is N and N is known for having those show Stopping moments of a Megan Red Hot in Nardo Beautiful Oh I love this This is Andrea and Leo Couture designer Anya I feel like an Oscar Well you know what on Oscar Sunday you could be in a lair Sundi This is your color I love it Do you feel Oscar ready I do This is a very Oscar kind of dress Ok Just my style Smart secret At the end of the night you can slip in to the dear f oh my match Ok guys we have some winners Well I can say this fitting was a home run I mean it's March Madness and of course we can't forget about KT a golden guy Sr and do our KT A red carpet A team is always live on Oscar Sunday But our special story is just starting to sparkle coming up Fashion secrets behind this year's Oscar nominated costumes the best place to sit like a star Plus more movie Magic from the Beverly Will Sure And to quote an Academy Award winning film Here's to the fools that dream DM on Instagram If you know the movie it's been 95 years since the very first Academy Awards and tonight we're celebrating the Golden Glow of Oscar the L A You way Welcome back to L A scripted from the Beverly Whi of Four Seasons Hotel with the best seat in the house The pent house Yeah we we have the opportunity and some of our largest suites here to uh in fact our penthouse suite um has a media room So we're we're able to uh to do some sort of private showings up there which is great It up on the 14th floor It's one of the largest suites in uh in L A So to be able to offer that inside of the suite it's something very unique And what would a film be without its wardrobe if the clothes make the man or woman in this next spot deserves a standing ovation for spilling some big screen style secrets for L A That's right Dana We're here at FDM Museums the art of costume design and film exhibition We're just not going behind the scenes I'm gonna take you behind the scenes here at F ID M Museum and this is the art of costume design in film exhibition So if you love movies motion picture but especially costumes and costume design this is the place to be I'm gonna show you If you guys love Austin Butler who doesn't you're going to love this exhibition because we've got three costumes from the movie Elvis designed by Catherine Martin She even went into some of the archives and found boxes of Elvis's mom's clothes and she said that she looked at them and she that they were rather sad You could almost feel out

who this woman was And so it's just amazing to know all that back story Many many actors say that they really don't get into the part Don't get into the character until they have the fittings the costumes They all of a sudden it's like this and they turn into that So you can only imagine the new Black Panther Ruthie Carter said that she made it especially for Letisha Wright for the character of Shuri Leticia's body her long physique So you notice this black Panther costume has a longer physique a longer neck the helmet It's got dots Why Because you notice that Shuri the character has dots on her face It's the face painting So it's then pushed on to the helmet One of my favorite costumes from this film is that costume the purple gown that Angela Bassett wears It's when she comes and enters the United Nations It's this gorgeous purple velvet gown with gold embroidery and it features a 3d headdress In addition to the Oscar nominees we also have a lot of other costumes from your favorite films including the Blockbuster Top Gun Maverick Marlene Stewart who's the costume designer this light jacket She calls the Franken jacket Why Because it's got a sleeve from here a jacket from here a collar from here It took months to make and the jumpsuits Well I've got some inside dish This one right here for Miles Teller but it's line in Cashmere because of course Miles's body needs to be touching Cashmere avatar is one of my favorites here The detail of the costumes I mean you think wait that movie is all digital but no the costume designer had to create every single costume for every live action actor The exhibition runs until May 6th and the best part As always it's free and remember KT A is always live on Oscar Sunday But our Night of Fancy Fun continues right here Coming up s shake and stir with the top nominees Scripted Oscar special will be right back We all know glam and award shows go hand in hand But did you know the most expensive jewelry ever One at the Oscars was in 2019 by Lady Gaga Her Tiffany diamond necklace was worth \$30 million Talk about a hefty price tag but you know what priceless having style smart on you saw as your red carpet weapon that you know I get so excited about the down But you know my favorite part of the or no it's all the behind the scene photos that the celebs post before they hit the carpet like you know the stuff that show they're just like us You know what that is true So I remember seeing Glenn close getting her glamour with a glass of whiskey in her hand and I was like go Glenn and Alana he from liquorice pizza doing a face mask in the car on the way to the event Well we've got the room service so I think we need to have our own little BT S moment 100% do it Ok Oh my God this veggie burger is about to get destroyed Ok Ok Here we go in frame Yep
